For stockists see Address Book.

Grain inspiration

Sweeping strokes of timber and stone underscore this kitchen's natural ingenuity.

DESIGNERS MARIE BURGESS AND ALEXANDRA DONOHOE. "This kitchen is a modern yet complementary insertion into a traditional Federation-style home. Our clients wanted a rock-star kitchen so we used luxurious marble for the splashback and book-matched the marble for maximum impact. Bronze details were used in the joinery handles, pendant light and joinery trims to add a feeling of complexity and refinement. The warmth of the timber floor is accentuated by the warm tones in the low-level timber veneer joinery." *What luxury items did you choose for this kitchen regardless of budget?* "To finish off the kitchen we added the Lindsey Adelman chandelier as a piece of jewellery to complete the outfit."
