For stockists see Address Book.

# LIGHT SHOW

*Simple and understated, this space exudes an air of modern luxury.*

JUSTIN ALEXANDER

**DESIGNERS ALEXANDRA DONOHUE AND LISA MEDICKE** "This was conceived from a desire to extend and open up a dark section of a California-style bungalow on Sydney's leafy north shore. A new full-height window to maximise sunlight saw us arrive at an enlarged galley-style plan layout." *What luxury item did you choose for this kitchen regardless of budget?* "Our approach was to create a space imbued with understated luxury. Thus, luxury items are employed with subtlety throughout the kitchen. Without a doubt the most luxurious element is the Calacatta marble splashback and benchtop. The Wolf 'E-Series' oven hits the high notes for the client who loves to cook. Lastly, the feature of the kitchen is the pendant light imported from Urban Electric Co in the US."
