

## MODERN LUXURY

*Dark green accents elevate this calm bathroom space to a luxurious level.*

This Decus Interiors-designed ensuite shows bathrooms needn't be neutral to be calming. Deep, muted colours have become a signature for talented young interior designer Alexandra Donohoe Church, and here she's added a jolt of dark green paint on the custom vanity doors.

Texture brings just the right amount of interest without making a wild statement. Weathered brass tap fittings work well with the drawer pulls, while the wall lights, handmade tiles and the Gervasoni 'InOut' table add a bit of quirkiness.

A sense of space is the ultimate luxury. Storage has been well considered so the room is airy and free from clutter. The vanity has ample space with a double set of cupboards and drawers, there are numerous hooks and custom towel rails, and a niche in the shower for everyday products.
